

OPC2IEC104

OPC2IEC104 Product Model : 02I-Softkey 02I-USBkey

Function description:

-Support remote control, telemetry, remote communication, remote control;
-Solve the power configuration software through the IEC104 protocol to monitor and control and access the data of OPC server, etc...

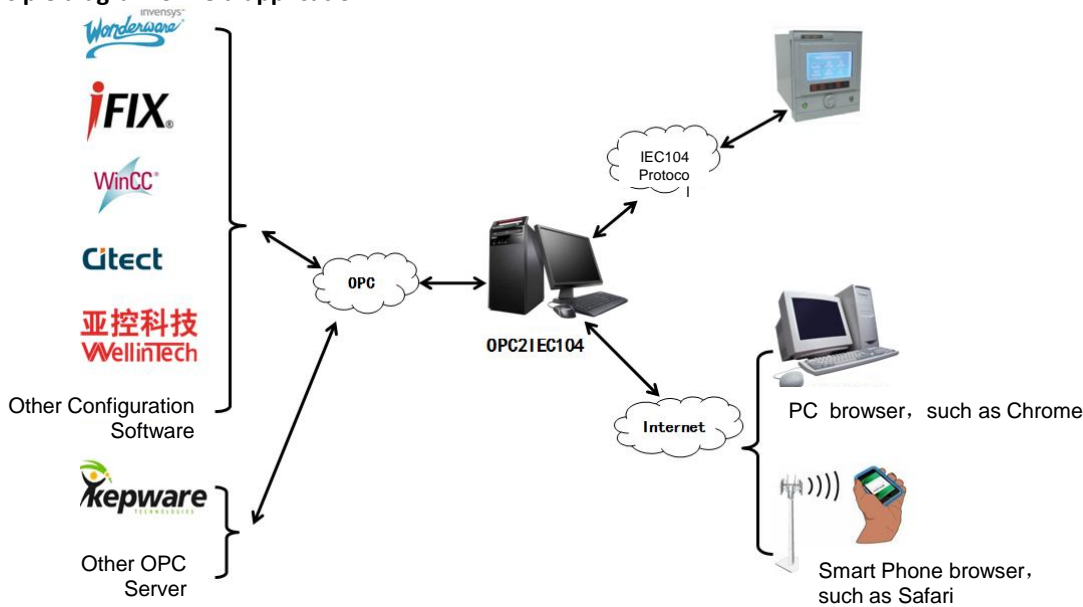

Operating environment:

software supports Windows, XP/2000/2003/Win, Server, 2003/Win, Server2008/Win, Vista and other operating systems 7/Win8/Win.

Software features:

- Green free installation, support in Chinese and english;
- Support read OPC server to IEC104 server;
- Convenient fault diagnosis;
- Support the import and export of data points to the EXCEL table for editing;
- Easy to use configuration software OPC2IEC104;
- 02I-USBKey encryption dog authorization, plug and play; 02I-Softkey soft authorization, easy to use;

Principle diagram of field application:

OPC2IEC104 Product Serials

OPC2IEC104 Product Model	Size/mm (L×W×H)	Weig ht/g	Color	Authorization mode / implementation function
02I-Softkey	None	None	None	The software authorizes / reads the OPC server and converts it to the IEC104 server, which has the function of disconnection and reconnection
